Design

Webpack: 4 months

Node.js: 6 months

Express: 6 months

MongoDB: 6 months

REST APIs: 6 months

Functional Programming

MVC Architecture

Jest: 4 months

Cypress: 4 months

Python: 6 months

C/C++: 6 months

Java: 1 year

Unity & C#: 1.5 years

OOP

PROJECTS

Postman Clone <https://likhity.github.io/webdev/postman-clone>

CSS Vanilla JS REST

A basic clone of the API tester
Postman.

The Burger Center <https://likhity.github.io/webdev/the-burger-center>

CSS React Animation Intersection Observer

A website for a fake restaurant.
Wanted to make an incredible landing
page with fancy animations.

Motor Skillz <https://likhity.github.io/webdev/MotorSkillz20App/index.html>

CSS p5.js Animation

A simple game app built with the p5.js
library aimed at improving a toddler's
fine motor skills.

ASU Course Tracker <https://github.com/likhity/asu-course-tracker>

Node.js Express MongoDB Twilio

MVC Architecture JSON Web Tokens

Tracks the number of seats available
for a course at ASU (Arizona State
University) and sends a text message
to the user whenever the number of
seats for a course change.

Personal Website <https://likhity.github.io/webdev/>

CSS Vanilla JS HTML

A portfolio website that displays
every single one of my projects, large
and small.
